

*Model 12R2/12R4 Equipment Package*

*Model 12R2/12R4 Design Phase*

*Model 12R2/12R4 Retail Concept*

## Description

Our 12R2 and 12R4 models are recirculating designs. Both models offer a 12-foot (3.7 m) flight chamber diameters and come in your choice of single loop, dual loop, extended glass, and various cooling options. Both the single loop (pictured) and dual return air tower models are designed to easily integrate into existing retail concepts and are geared primarily toward entertainment users.

## Specifications
